The data are attached. It was no trouble, I was just trying to make it a bit more organized for you to sort through.

Let us know if you have any questions.

-Nate

Hi Nate,

I am unable to download those documents still. Could you send them via email(s)? Sorry it is a bit of a hassle!

Valerie

I unzipped them in that folder, try the link again. If that doesn't work, I'll just attach them to an email as a bunch of separate files, it will look like a mess but it should work.

I can only view the folder, but not the files. Microsoft has blocked me from downloading or unzipping these files.
Perhaps there is another way to share them?

Thank you,

Valerie

The files are in zipped folders so Microsoft is probably trying to protect you.

Does this link work for you?
☐ BASF_NW_DATA_TRANSFER

If not, I will try something else.

Hi Nate,

My computer for some reason blocks viewing these files. Is there another format you could send these in? Or perhaps use a sharepoint link?

Thank you,

Valerie

Hi Valerie,

I put together the data you requested as we received it from the labs. If you have any questions or need anything else let me know.

Thanks,
Nate

Hello Jacob and Nate,

Could you share with Molly and I some groundwater analytical data sets? In particular, could we get a copy of:

- June 2021 EGLE Splits taken with BASF
- October 2021 EGLE Splits taken with BASF

If possible excel format would be preferred. Please let me know if you have any questions.

Thank you,

Valerie
